Intoduction

Swastika had never been a controversial symbol in the world as being an universal symbol of Good Luck and well-being until after Second World War. German Nazi party and its leader Adolf Hitler adopted *Hakenkreuz,* the German term for Vedic or Aryan symbol of Swastika. The after math of Second world war completely changed the identity of Swastika Symbol in the mind of western world. Once highly respected and revered symbol of Swastika all over the world since millennia has been frowned upon with hate, disgust and dislike due to its use by Adolf Hitler and his Nazi associates as their symbol of nationalism. They waged inhumane and barbaric acts of killing millions of innocent people during Second World War. The horrific, heinous , brutal and barbaric atrocities inflected by the regime scarred the mind of the victims and the European world, who rightly or wrongly poured their wrath towards the mere symbol of Swastika and portrayed it as symbol of hate, horror, brutality and terror. Once known as gentle, loving, sacred, holy, pious as well as good luck and well-being symbol of Swastika was also suddenly blamed for those barbaric acts and subsequently British European and American government ran a big propaganda to tarnish the image of Swastika Symbol and tried to hold Swastika symbol also responsible and made efforts to ban the use of Swastika symbol in western world.

Although we all have a great heartfelt pain and sympathy with all the victims and the surviving family of holocaust , It is difficult to understand the real logic behind blaming and banning a mere innocent symbol who held pristine, majestic and sacred status among all human races all over the world and more than half of the population of the world respects, reveres and worships that same symbol even today. If a mad man utilise the knife to murder other innocent people, No one can blame or hold a knife responsible for that barbaric act of a person and impose international ban on knife which is just instrumental. There were many inhumane atrocities were inflicted under the banner or symbols such as crescent, Cross, Union Jack in past. Does any government of western world ever consider to treat those symbols or banners same as Swastika and impose a ban and run such hate campaign ?

On-going attitude of European Parliament and American Government to impose the ban on use of Swastika symbol and European Parliament considering the total ban on use and display of Swastika symbol in Europe many years ago had prompted and Inspired me to write an article '' Hands off Our Sacred Swastika''. Subsequently, I was inspired to write some poems on praising Swastika in positive sense. Although thousands of book written on Swastika Hitler and Nazism but my publication was the first and foremost attempt to publish poems on a symbol of Swastika in positive context. I had published Hindi and Gujarati poems on Swastika and they were well received. I had long time outstanding plan to publish my poems in English too and I am glad that I have been able to fulfil my dream to publish the collection of my poems in English language. I hope all the readers would welcome my effort to revive and reclaim the legendary pristine status of Swastika, the most ancient symbol of the world which is famous for representing love, peace, progress, prosperity, harmony, good luck, well-being, spirituality and divinity. Our good intention of this publication is to promote Swastika in positive context and to educate the people about the goodness of Swastika. We hope people opposing Swastika symbol would understand real status and meaning of Swastika and the religious feelings and faith of majority people of the world believing in Swastika and worshiping Swastika as a divine symbol.

Swastika saying….

I am a gentle Swastika, I am a sacred symbol.
I haven't done anything wrong at all,
So why you blame a mere symbol.
Whatever Hitler did in II world War,
I had nothing to do with it at all.
Whatever cruelty Nazis inflicted in war,
How can I be responsible for their faults?
Hitler called himself an Aryan man,
But he had dark skin, hair and was a little man.
Hitler and Nazis was Christian Clan,
Who didn't know the real meaning what Aryan stands.
I am an amicable Swastika symbol.
I do not discriminate any one at all.
I'm the only ancient universal symbol,
Wishing the good luck to you all.
I am the world's best wishes symbol,
showering the blessings to you all.
I'm a noble Swastika Symbol,
Holy sacred and merciful symbol.
I'm in all culture and in all art,
derived from ancient civilisations' heart.
I am an ancient Vedic Aryan's symbol.
Humble, cultured and civilised symbol.
I'm compassionate, merciful and kind,
worshipped by millions of holy minds.
I'm a sweet loving Swastika Symbol,
Honourable, peaceful and friendly symbol.
This is the truth and nothing but the truth,
Whatever I'm saying please believe it or not !

WRITER'S INTRODUCTION

Mr Hemantkumar Gajanan Padhya was born at Khattalwada near the historic town of Sanjan where Parsis given asylum by local King named Jadav Rana. , Khattalwada is situated in the district of Valsad, Gujarat state which was formerly known as Thane District of Mumbai Rajya, Maharashtra. Mr Hemant Padhya came to England for further study in 1976. Since his arrival in England, he has devoted his time and efforts to promote Indian art, culture and religion in United Kingdom and he has been instrumental to establishing several organisations including Hindu Swatantryavir Smruti Sansthanam (UK) and he has been actively been involved with several national and international organisations.

In 2003, Mr Padhya was chiefly instrumental and played vital role in long and lengthy process to fulfil the last desires of a great Indian Freedom fighter Pandit Shyamaji and his wife to have their Asthi (ashes) sent to India once the country had gained independence. There are several projects, to Mr Padhya's credit, such as reviving the memory of Pandit Shyamaji in UK. He organised a memorial plaque to be mounted at Pandit Shyamaji's former home in London. He also established 'Pandit Shyamaji Krishnavarma Silver Medal' award at the prestigious OCHS, The University of Oxford and College de France at Sorbonne University, Paris. Recently he persuaded University of Oxford to honour Pandit Shyamaji, by unveiling a portrait of Pandit Shyamaji at Indian Institute Library, accompanying Pandit Shyamaji's patron and mentor, Sir Monier - Williams.

Mr Padhya interest in writing poetry and articles developed during his college life and wrote articles in College Magazine. Hls interest in writing continued after he arrived in Britain too. He wrote some articles in local Indian newspapers and later he had published a booklet on short biography and the Nationalist thoughts of Swami Vivekand and religious books titled 'Hindu Dharma' and Shrl Satyanaraya Katha . He edited several magazines of local organisations. He published his own poetry, titled "Dared", as well as released Musical Compact Disc of his patriotic songs called 'Jay Hindutvam' He had also written several articles in Gujarati and English for many publications, including very well received article 'Hands of our Sacred Swastika' to oppose the ban of Swastika Symbol by European Parliament. In last decade, Mr Padhya has published three books titled ' 'Swastikamrut' in Hindi, ''Shri Gautam Gotranl kuladevi Shri Shakatambika Mata, in Gujarati and a biography titled '' Photographic Reminiscence of Pandit Shyamaji Krishnavarma' in English.

As a result of his continued efforts to revive and reclaim the glorious and pristine status of swastika symbol in western world, He has published two e-books of his poems on Swastika under the title of ''Swastika Poems'' in English and ''Swastikaganga'' in Hindi. We hope that sincere readers would definitely welcome these new publications.
